

<b>Description</b>	Constant pressure/non-constant pressure braked butterfly valve assembly(Drawing No.:96-XB105DIJF01)		
<b>Operating Temp.</b>	Butterfly valve body operating temperature can reach 650°C , the Instantaneous temperature can reach 700°C,And the working temperature of the environment and the cylinder: -30°C-150°C.		
<b>Operating pressure</b>	The cylinder Rated working pressure:0.8MPa,Max. Pressure:1.3MPa		
<b>Port thread</b>	M10X1.0	<b>Service Life</b>	1 million times
<b>Fluids</b>	Butterfly valve:Engine exhaust;cylinder:compressed air	<b>Matching manufacturers</b>	FAW.
